- **Microneedling (75 mins)** £110  
Course of 4 sessions £390

This adaptive facial includes a superficial enzyme exfoliation followed by your light therapy session; our NEO Elegance Lumineo device incorporates LED wavelengths that penetrate into the skin, boosting collagen, evening skin tone, reducing breakouts and accelerating healing with no downtime. Your treatment will conclude with a mask suitable for your skincare concerns.

Also known as skin needling or collagen induction therapy, microneedling is an incredible treatment where a therapist will use a microneedling pen that uses small needles to cause tiny punctures in the skin. These small contact points encourage the body to create a wound healing response and renews the skin cells. An ideal treatment for scarring, pigmentation and sun damage, wrinkles and dull skins. Our microneedling treatment also includes LED light therapy to boost results and to aid in the healing process. A course of 4 sessions is recommended for optimum results.
